

Your Rural Assistant - Uniting You With Small Town Talent

A social enterprise catalyzed by [EDGE](#). Think of us as matchmakers!

We recognize that many small businesses, social enterprises, and nonprofits are struggling as the day-to-day tasks can be time consuming. We also understand that there are people in rural and small towns throughout the country that are underemployed or unemployed. Why not connect them?!

Communities of faith across the country know these people in their communities and can spread the word of this new initiative. We're hoping to build a network of local, authentic, qualified applicants to fill roles as needed.

So, we've partnered with [Contact North](#) to provide any necessary training to ensure applicants have the updated skills to be successful. We want these matches to work! We're here every step of the way to help make this happen.

Have questions? Check out our [FAQs](#). For more information or to get involved, please [contact Carrie Frostad](#) or learn more about this initiative [here](#).

We have some great job opportunities waiting for the right candidates!
